

# IVUS + Intracoronary Near-Infrared Spectroscopy (NIRS):

A Pathway to Improve Patient Outcomes in Stable and Acute Coronary Syndromes

 Tuesday, 19 May 2026

 16:30 – 17:30

 Room 251

## Faculty

**Moderator:**  
Javier Escaned

**Discussant:**  
Tomasz Roleder

**Guest Speakers:**  
Rasha Al-Lamee

Davinder Chadha

Thomas Keeble

## What to expect:

- The complementary value of IVUS and NIRS in coronary imaging
- Understanding lipid-rich plaques and their clinical relevance
- Imaging strategies in stable coronary artery disease
- The role of plaque characterization in acute coronary syndromes
- Case-based discussions on imaging-guided PCI
